

Planning the Perfect Party for Your Child

It's party time. Whether it's a ropin' cowboy party or a princess garden tea party the most important thing to remember is that a party is all about details and FUN! A child's birthday is one of the most important days in their lives so it is definitely an excuse to pull out all the stops.

The first step to any event is to pick a theme. Let's say we pick a "flower garden" theme. The second step would be to pick an activity or activities that incorporate the theme. At a "flower garden" the birthday boy/girl and guest can pot their own flowers, craft paint is great for decorating their own flower pots (request on the the invitation that a paint shirt be brought) and if dirt is a no go then you can do silk flowers with rocks as the dirt.

After the activity of course it is time for food. Chips, fresh fruit, mini p&j sandwiches and other goodies can be served right out of a lined flower pots. For added fun add some gummy worms coming out of the pots. Cup cakes can be decorated with bright flowers and served on cut out plates of flowers, bees and ladybugs.

The most important thing to remember is that this is an exciting milestone for you and your child. This is your child's big day and should be planned with their age and their interest in mind so have fun!
